

RP Data's On-Line Property System gives you quick, economical, 24/7 access to extensive property data so you can make more informed decisions.

RP Data's On-Line Property System lets you instantly access eight major real estate information databases. Now you can download and compile more data far more easily than with any other system. Simple to access from most computers or terminals, you can tap into this information-rich service 24 hours a day, 7 days a week to keep you ahead of the competition.

RP Data's On-Line Property System is also very economical. If you're a user of our on-line services, we offer you a low, fixed monthly rate.

On-Line Property System

real estate

10 REASONS WHY THE ON-LINE PROPERTY SYSTEM IS ESSENTIAL FOR YOUR OFFICE:

- Access eight data sources including current property ownership records, historical sales, advertised properties, electronic maps, property improvements, photos, residential and business telephones
- Searches in mere seconds.
- Constantly updated with the latest information
- Search, select and sort data in a variety of ways
- Reports are easy to produce
- Property ownership searches can include electronic map details, improvements and photos
- Perform professional Comparative Market Analysis (CMA) reports
- Simple farming of areas by suburb and local authority
- Save time on repeat searches by holding up to 5 different reports at the one time
- Quickly find any residential or business telephone numbers

Since 1991, RP Data has been providing innovative and comprehensive information solutions for the Australian and New Zealand property industry. Through our services, clients obtain the most thorough and up to date property information delivered in real time to increase revenue and productivity, cut costs and extend their capabilities in a highly competitive marketplace.
