

Simplicity is the key

Realtor Trust Manager is an easy to use Trust Accounting System designed for the small to medium sized Real Estate Office. The ability to integrate with Microsoft Word and Work Centre allows offices to fully automate the clerical functions of a busy Property Management department.

Full Accounting System

Realtor Trust Manager has evolved over the years, adjusting to the changing legislation and banking requirements. As a result the program integrates with all major electronic banking systems, is GST compliant, provides detailed financial reporting and even handles multiple trust accounts!

Growth & Flexibility

You need a system which can grow with your business. Realtor Trust Manager allows you to purchase additional modules as required. Realtor Trust Manager is also packaged as a multi user program.

Property Photos

Ever wanted to keep a photographic record of the condition of a property? Realtor Trust Manager allows you to allocate 9 photos per property. Properties are quick to add, simple to view, with the added benefit of using the photos for advanced functions.

Fully Automated Task Centre

Time is money, Realtor Trust Manager provides a simple yet effective solution to many time consuming and costly tasks. Generate standard letters, reminders and tasks automatically, with the option to print, fax or send via e-mail. Tasks can involve arrears, inspections, maintenance and more.

Marketing

Ever been caught in a rush to prepare advertisements and vacancy lists on a Friday for the weekend? Realtor Trust Manager's Vacancy System provides the ability to produce vacancy lists (with or without photos) and advertising schedules. The program even has the ability to produce high quality brochures, window cards and a rolling window carousel.
